

BIOGAS ENCLOSED FLARE

Quality designs. Lasting solutions.

Zeeco is the world leader in biogas flare technology for landfill and digester applications. Our extensive field experience and proven designs dispose of methane and other decompositions both efficiently and effectively – and offer the long-lasting reliability you've come to expect from Zeeco.

Proprietary features with proven performance.

Zeeco's biogas enclosed flare system incorporates the latest features and options to handle a wide range of flow rates and to ensure optimal performance. With advantages that include no visible flame and quiet operation, Zeeco's biogas enclosed flare systems are ideally suited for urban locations.

Meets or exceeds all regulations.

Zeeco's biogas enclosed flare systems are specifically designed for stringent emissions requirements including the Code of Federal Regulations (40 CFR 60.18) to meet or exceed a 98% destruction efficiency established by the Environmental Protection Agency.

The Zeeco difference.

Zeeco is a worldwide leader in combustion and environmental solutions with thousands of installations to our name. For more than 35 years, Zeeco has tackled the most challenging projects to help industries operate safer and cleaner. With more than 20 global locations, comprehensive aftermarket service and support, and a team of engineers dedicated to your mission, Zeeco is the natural choice to improve operations and reduce your carbon footprint.

Biogas Enclosed Flare

Proprietary Design Features

- PLC based burner management (BACT)
- Guaranteed emissions values
- 310 stainless steel casting components
- Stabilizing flame ring

Applications

- Digester
- Landfill
- Wastewater treatment

CFD

Temperature (°F)

ZEECO® combustion and environmental solutions are designed and manufactured to comply with applicable local and international standards as defined by our customers.
